

W Pale palisade fence

Description

W Pale Palisade fencing offers the best there is in a security fence, a durable versatile fence at a cost effective price. Simple to install, the individual components are hot dip galvanised prior to leaving our factory and no further welding,

cutting or drilling is necessary, ensuring total corrosion protection and minimising installation time and costs.

Palisade is more secure than other fencing systems, so wherever security is a priority, Palisade is used. Steel palisade fencing is especially popular for schools, park and industrial sites because of its high damage resistance and the fact that it is so difficult to climb.

As palisade fencing manufacturer, HT-Fence supply both the W section style of palisade fencing 70 width and 62 width style, with the integrity of the palisade fence being maintained by the two horizontal rails that are used as standard in palisade fences up to three metres high. However, we can supply other heights of palisade fencing as your required.

We can do different pale head shape:

Fence detail: Pale, post, rail bolt and fish plate

Pointed

Triple Pointed
