

Twin wire mesh fencing panel(2D)/Double wire mesh fence

Description

The double Wire mesh fence system provides a versatile welded mesh panel with double horizontal wires. Each steel panel features twin 8mm wires welded either side of 6mm vertical wires, giving would-be intruders little chance of breaking through. Panels are fixed to steel posts using sturdy clamps and secured with pin hex security screws, with no visible fixings on the back of posts. It is made of high quality low carbon steel wire, galvanized wire. Then will be hot dipped galvanized, powder coated or pvc coated. It looks modern and attractive. Mainly used for security protection in construction site, residential building, sports field, warehouse, highway or airport service area, railway station, etc.

The height are available in a range of heights from 1030 till 2430 mm.

The panels have vertical barbs of 30 mm that can be placed at the top or at the bottom.

The horizontal reinforcements of Bekafor Classic give the panels extra rigidity.

The popular wire diameter are 6+5+6mm and 8+6+8mm, mesh holes are 50×200mm, others are available.

Posts are manufactured from steel tubular section with threaded inserts for fixing the steel mesh clips. Additional fixings are provided to accommodate stepping of panels where the fence is installed on a gradient.

The general post section are 60×60mm, others are available.

HT-Fence welded wire panel fence is manufactured from galvanised material, powder coated and pvc coated. The popular color is Green RAL 6005. If others color is required, we're easily able to provide this. All of our fence power from AKZONOBEL Company.

Double wire mesh fence Features

- ❖ Mesh sizes are 200x50mm with 1x6mm&1x5mm vertical and 2x8mm&2x6mm horizontal wire.
